EXPERIENCE

USER EXPERIENCE DESIGNER

AppFolio | Mar 2019

- Responsible for the usability of the Utility Management business line.
- Facilitates brainstorming activities for product development teams and product leadership.
- Owns discovery for both tactical and strategic initiatives for the utility management product.
- Validates solutions through user testing and behavioral data.
- Implements change management strategies for both customers and internal users.
- Creates product visions to help orient teams to the larger product ecosystem and problems spaces they are working in.
- Mentors new and onboarding designers to prepare them to be successful at owning the usability of the solutions in their teams.
- Educates designers and cross-functional team members on usability heuristics to process, prioritize and eliminate UX debt.
